# EDWIN DIVINE

✉ edwindivine5@gmail.com  ⌂ github.com/Cheeh1  in linkedin.com/in/divineedwin  divineedwin.netlify.app

## 🎓 EDUCATION

**University of Ilorin,** Ilorin — B.Sc *Information Technology*     2021 - till date.

## 💼 EXPERIENCE/PROJECTS

**EngageAm |** Frontend *Developer (contract)*     December 2024- May 2025

- Built and maintained the frontend application for the startup using modern web technologies.
- Collaborated closely with backend developers and the project manager to develop and integrate key platform features.
- Optimized the platform for performance and scalability to accommodate a growing user base.
- Implemented proper testing practices to ensure functionality and reliability of the application.

**Cimpla Africa |** Frontend *Developer Intern*     May 2024- November 2024

- Developed a responsive company website, enhancing user engagement and providing comprehensive information about the company's products and services.
- Designed and implemented a customer waitlist website, successfully capturing contact details of potential clients into the database.
- Collaborated on developing a key product dashboard, integrating essential data endpoints to facilitate real-time monitoring and improved user interaction.
- Enhanced team collaboration using tools like Git and GitHub, ensuring efficient collaboration and seamless integration of code changes and communication using Meet, leading to more efficient problem-solving and faster delivery of features

**Credit Direct Finance Limited |** Frontend *Developer Intern*     June 2024 - September 2024

- Developed and implemented a "Log a Ticket" feature for a financial product, improving user support and issue tracking
- Collaborated closely with product management and business to resolve product issues, delivering timely fixes and enhancements based on feedback.
- Participated in daily stand-up meetings and sprint planning sessions, engaged in code reviews, and provided feedback to team members to contribute to the agile development process.
- Utilized version control tools like Git and GitHub to manage and collaborate on code efficiently, ensuring smooth integration and deployment processes. Communicated effectively with team members using Microsoft Teams and managed tasks and workflows with Jira to maintain organized and timely project progress.
- Contributed to the development of an enterprise solution by building key process flows, integrating necessary APIs, and coordinating with the QA team to ensure compliance with product requirements.

**Blue Devtech Solutions |** Frontend *Developer Intern*     Sept 2023- Nov 2023

- Integrated backend APIs and third-party libraries to increase data access efficiency and overall functionality.
- Utilized tools like Trello to achieve on-time delivery and ensure version control with Git and GitHub, leading to smooth development and deployment.
- Worked in front-end development, crafting user interfaces and functionalities, contributing to an improvement in user engagement and overall user experience
- Actively participated in virtual meetings via Google Meet, which resulted in a reduction in development time and a decrease in miscommunication-related errors
